Kansas kids are charged numerous fines and fees during their interactions with the criminal justice system—from their first interaction with police to their final probation or parole meeting. These costs serve no rehabilitative purpose and can prolong engagement with the criminal justice system. Will you vote YES on legislation to eliminate fines and fees in the juvenile justice system?

Hougland backed affordable housing for the homeless in a candidate questionnaire.

Policy and Strategy:

Kansas Housing Resource Corporation's 2021 Housing Needs Assessment found that “A shortage of quality, affordable housing is an undeniable barrier to economic growth and development in any community, and particularly in rural communities in Kansas.” How likely are you to support increasing funding for affordable housing development?

Very Likely

Comments:

I was in support of the bill that was to invest \$40 million to address the homeless population until the amendment - once the amendment was accepted in committee - I was never so happy as to see it pulled!

Hougland supported the Panasonic tax incentives.

Q: The Legislature approved a large aid package to attract Panasonic to DeSoto. Do you support that approach, and what else should the state do to follow up, if anything?

- **HOUGLAND:** "I am glad we were able to bring Panasonic to Johnson County! Yet the fortune is in the follow up. We now need to build more homes and daycare centers for the families moving to our area, and be prepared to build more schools and entertainment venues. So much good to come from this growth. Having lived in Olathe most of my life, I have seen growth and know how much good comes from it."

Hougland is on the record supporting Medicaid Expansion and Fully Funding Special Education.

Allison Hougland, Democrat

What should Kansas do about the teacher shortage? And what kinds of laws should the Legislature prioritize that would affect Kansas schools?

Fully funding K-12 education including special education would be a good first step. Providing competitive compensation packages that value their service and respecting their expertise are essential. The Legislature needs to stay in our lane. Kansas has a Board of Education that is responsible for setting education parameters and local boards to work within those parameters. Funding should allow for smaller class sizes and provide better work/life balance for teachers.

Do you think Kansas should expand Medicaid?

Yes - Medicaid expansion would cover 150,000 vulnerable Kansans that are currently uninsured, including 40,000 children. Healthy people make for a healthier state and workforce. We have forfeited nearly \$6 million that could have provided Medicaid in Kansas. Instead Kansans have paid for Medicaid in other states. The money Kansans pay for Medicaid could/should stay in Kansas.

Paying attention to the debt ceiling crisis?
Here's a quick summary from the White House

The White House yesterday released a fact sheet outlining the cuts Republicans are demanding before they will agree to raise the debt ceiling. In addition to costing jobs and throwing the nation into a recession, their demands will cut nearly 7,500 rail inspection days, shut down at least 375 air traffic control towers, and cut \$5.2 billion from highway infrastructure projects. The cuts... See more

I have volunteered to help our homeless population for years. I became a realtor to help people realize the dream of home ownership. This is my passion, my work, my dedication. We need a living wage to make this a reality. Kansas recently led the nation in women's rights. Let's lead the way again by paying our workforce a living wage & offering more affordable housing options. Together, we can succeed!

As we near a possible government shutdown, remember that one of the biggest deficit drivers of the past 20 years are GOP tax cuts for the wealthy & corporations. The issue isn't programs that help millions of Americans, it's giveaways to the rich.

The KNEA opposed comprehensive income tax relief, as well as eliminating the state tax on social security and groceries.

“Providing an income tax rate of 4.95% for individuals and decreasing the normal tax for corporations, increasing the income limit for the income tax subtraction modification for social security income and providing that all social security income qualifies for the subtraction modification commencing in tax year 2026, increasing the Kansas standard deduction for individuals and further increasing the standard deduction by a cost-of-living adjustment, discontinuing the food sales tax credit, decreasing the privilege tax surtax, establishing a 0% state rate for sales and use taxes for food and food ingredients on July 1, 2023, and increasing the extent of property tax exemption for residential property from the statewide school levy.”

*“Timothy Graham, Kansas National Education Association, testified as an opponent for **HB2457** stating changes in tax policy should not only consider the impact on the average Kansas citizen but also the impact on the Kansas budget. KNEA opposes any tax policy that would impact the stability of the state budget and/or prevent the constitutional funding of Kansas schools and create an imbalanced tax structure that unfairly burdens low-income families. (Attachment 10) Mr. Graham stood for questions from Committee members.”*

The KNEA opposed a flat income tax and opposed pro-business tax-relief measures such as removing the 3% state surtax on corporations and cutting the surtax on banking and financial services by 50%.

Oral Testimony – Opponent
Senate Assessment and Taxation Committee
Senate Bill 169
February 15, 2023

Chairperson Tyson, members of the Committee, thank you for the opportunity to submit testimony in opposition to SB 169.

KNEA believes that changes in tax policy should not only consider the impact on the average Kansas citizen but also the overall impact of the Kansas budget.

KNEA opposes any tax policy that would impact the stability of the state budget and/or prevent the constitutional funding of Kansas schools. We also oppose the creation of an imbalanced tax structure that unfairly burdens low-income Kansans.

Based on this, KNEA opposes this legislation on two grounds.

- Fairness
- Feasibility

Fairness

Senate Bill 169 essentially creates a flat tax system. In short, flat income tax proposals are regressive in nature and create a higher burden on the wage earner at the lower end of the spectrum. In the case of SB 169 an educator, or other wage earner, that has a minimum taxable income of \$15,001 would be subject to the same tax rate of a millionaire.

A similar bill on the House side removes the 3% state surtax on corporations making over \$50,000 yearly. The bill also cuts state surtax rates on banking and financial institutions by over 50%. We do appreciate that these provisions aren't included in this legislation, but we are extremely concerned that the process will yield a bill that includes them.

If this were to happen, One typical scenario that shows the irony and unfairness of this type of proposal is that educators, parents, and students, spend hundreds of thousands of Kansas dollars every year in preparation for the school year only to know that the yearly windfall that the wealthy corporations receive from this rush for supplies is taxed at the same level as the hard-earned wages of the consumers.

AFL-CIO Statement Endorsing Medicare for All.

Our goal is to move toward a single-payer system, like Medicare for All, that provides universal coverage using a social insurance model, while retaining the critical role of workers' health plans. Any such system must guarantee everyone can get the health services they need without exclusions or financial barriers to care, and with access to high-quality doctors, hospitals and other health care providers; not diminish the hard-fought benefits union members have won for themselves and all working people; include long-term care for all; retain the Department of Veterans Affairs health care system as the primary direct provider of fully integrated care to veterans; provide multiemployer and other worker health plans the opportunity to administer core health benefits and to provide supplemental benefits, each on a fully tax-advantaged basis; and keep a strong federal role without shifting costs to states. We will support legislation, like Medicare for All, that guarantees health care as a human right through a single-payer system, which we will judge according to the above core values.

AFL-CIO favored the Biden student loan bailout.

"We call on the Biden administration to do its part to assist borrowers hampered by crippling debt. Organized labor was built on the foundation of creating a pathway to the middle class for everyone, but skyrocketing student loan debt has become an insurmountable obstacle to achieving this goal. The Biden administration's decision to continue to pause student debt has made a tremendous difference in the lives of so many borrowers, but these borrowers still live with the uncertainty of not knowing when they will need to drastically alter their finances in order to begin repaying their loans. After all that we have endured in the wake of the COVID-19 pandemic, we cannot ask working people to make further sacrifices. Now is the time to cancel, not collect, student debt."

AFL-CIO favored giving amnesty to illegal aliens.

"America's unions laud House passage of the American Dream and Promise Act, and urge lawmakers to use it as a catalyst for broader immigration reforms that are long overdue. The Senate must now step up and take action to provide a well-earned path to citizenship to working people who help to build, feed, serve, educate and care for our nation. Throughout the country, working people of all backgrounds are organizing and winning. We will continue to mobilize to support legislation like the Dream and Promise Act that uplifts workers' rights and protects our right to organize."

According to the Kansas Democratic Party Platform in 2021, they support radical positions such as ending cash bail, Medicare for All, stopping oil fracking and other radical environmental standards, and rewarding illegal aliens with in-state tuition and amnesty.

Kansas Democrats support eliminating the use of cash bail and believe no one should be imprisoned for failing to pay fines or fees or have their driver's licenses revoked for unpaid tickets or simple violations. Equal justice under the law should not be contingent on the ability to pay for quality legal representation, which is why we support increasing funding for public defenders and for the Legal Services Corporation.

Support insurance policies that are comprehensive and not comprehensive.

Kansas Democrats support a transition to a single-payer health care system, for example, "Medicare for All."

The depletion of the Ogallala Aquifer and other water sources as well as the silting of Kansas reservoirs are critical problems for the future development in Kansas. We support educating the public on water conservation. Kansas Democrats oppose unregulated hydraulic fracturing (fracking). We demand full transparency on the chemicals injected underground. Fossil fuel companies must be able to guarantee their operations will not disrupt or pollute vital groundwater and aquifers, and that injection and waste disposal operations will not cause earthquakes. Kansas Democrats believe action is needed to protect Kansans from uncompensated economic damages caused by induced earthquakes and to protect water systems vital to agricultural, commercial, and domestic use.

Kansas Democrats support Deferred Action for Childhood Arrivals (DACA). People brought to our nation as children should be cared for and given a clear path to citizenship. We believe immigrant children who have lived most of their lives in Kansas should have the same educational opportunities and continue to be afforded the same tuition rates as other Kansas residents.

We support a path to citizenship for undocumented workers, caregivers, students, and children who are an essential part of our state economy and the fabric of our nation. Mass deportation of immigrants would deal a devastating blow to many Kansas communities and vital industries.

Kansas Democrats advocate for the education of immigrants on their workplace rights to prevent the exploitation of labor and support prosecution of employers who ignore workplace safety and compensation laws. We support the Development, Relief, and Education for Alien Minors Act known as the DREAM Act.
