Day 1 / Day 2403 at Google!

Very excited to be joining Google again today after an almost 12-year hiatus, this time to work on AI responses in Search 🎉

I've been watching the evolution of Search and AI from the outside for a long time, and I can't imagine a more exciting moment to be returning to Google and helping build what comes next.

A few weeks ago, I made the bittersweet decision to say goodbye to an incredible second adventure at Meta. I'm grateful to the many teammates, partners, and leaders I had the chance to work with there and to everyone who bet on me along the way 🙌

Feeling grateful for the journey so far, energized for what's ahead, and excited to put my Noogler hat back on and build 🙌🚀

While Maier lists himself as the sole proprietor on his financial disclosure as of his filing on June 2026, the official ZPM LLC filings do not list him as a member who owns 5% or more of capital, which appears to be a violation of Kansas law. It appears that an LLC formation company is filing these reports on his behalf.

Lawsuit Over Expensive Home Build

KEM Studio, a Kansas City architectural firm, sued Zachary Maier and Tim Oeljeschlaeger for allegedly failing to pay \$96,629.84 for work designing a Lake Quivira home. Because both men lived in New York, KEM had difficulty serving them: initial out-of-state summonses were unsuccessful, KEM obtained additional time and a private process server, and they were eventually personally served in August 2022. The defendants challenged both the timeliness of service and Missouri's jurisdiction, arguing they lived in New York, the project was in Kansas and the contract was accepted in New York.

The defendants denied owing KEM and counterclaimed for \$191,204. They alleged the home's agreed all-inclusive budget had been increased from \$1 million to \$1.5 million, but KEM ultimately produced estimates of \$4.5–\$5 million, submitted inconsistent cost projections and increased its percentage-based fees without approval. They asserted breach of contract, misrepresentation, consumer-protection violations, professional negligence and fraud. These remained disputed allegations. After discovery and depositions, the scheduled jury trial was cancelled and all claims were dismissed with prejudice in January 2024, likely reflecting a private settlement rather than a judicial finding for either side.

Policy Positions

Zach Maier supports fully funding special education, which could trigger a \$1 billion a year tax increase in Kansas.

Fund public schools

I'm a public school kid. I thrived in special ed programs, and they launched me into K-State engineering and every success since. Now my kids are part of the Shawnee Mission schools, and I want to ensure every student in USD 512 and USD 232 gets that same head start.

My top education commitments are to:

- Increase funding for K-12 classrooms
- Fully fund special education
- Keep public dollars in public schools
- Preserve public university budgets

Every tax dollar spent on public education pays itself back multiple times in economic value. It's time for Kansas to do the right thing and invest in our kids' futures.

(Source: <https://zachforkansas.com/>)

At a recent Shawnee Chamber forum, Zach Maier came out strongly against a cap on property tax increases.

On the income tax front, I think we need to undo the new income tax ratchet we just put into law — it's just Brownback's tax policy sneaking in wearing a trench coat and putting us on the path to bankruptcy again. And because I know it's been discussed before, we should absolutely not pass a hard cap on local property tax. There was a bill in the legislature this last cycle that would have capped how much Shawnee could spend on public safety, including police and fire, and I don't think we should do that. So in core, my tax policy belief is that the state can step up and ease people's property tax burden and pay its fair share back to Shawnee.

He also came out in favor of tax incentives for corporations, including supporting the Panasonic deal.

First and foremost, we need to help more companies start here — we have a few state programs that can help, like expanding our angel investor tax credit and expanding our R&D tax credit programs. We also need to make sure existing programs keep their promises — the Panasonic battery plant is great, I'm a huge fan of that project, but it's running at about 40% of capacity right now. 40% capacity means 40% of the jobs and 40% of the economic impact, and we need to help them keep their promise to get that factory running at 100%.

We also need local government at the helm with economic development. The stadium STAR bond district is a great example of the state overreaching — if we don't fix the definition of that STAR bond district, there will be no more STAR bonds in Shawnee for the next 30 years. Right here in our district we have a corridor along 435 that would be great to develop, and the city is excited to work on it. We shouldn't be competing with Topeka to make that happen

He supported Medicaid Expansion.

As a small business owner, I buy my own marketplace coverage for me and my family, and it was terrible last year. We have to figure out how to lower costs for everyday Kansans. A few things I'd work on: we should of course expand Medicaid — it's the most common-sense, easy thing we can do to lower healthcare costs for

everyday Kansans; the party in power has been voting against it for about a decade now, and it's time to just make it happen.

He favored a state reinsurance policy that has been shown to sometimes increase ACA policy premiums in other states.

I also think the state could look into starting a reinsurance program like some other states do — a state fund that pays part of the largest claims, which in theory reduces insurance premiums for everyone. It's a simple thing we can do to lower costs.

Note on Reinsurance: ACA subsidies are calculated off the premium of a benchmark plan, when reinsurance pushes premiums down, it can also shrink subsidies. One study of Georgia's reinsurance program found it increased the minimum cost of enrolling in subsidized marketplace coverage by roughly 30%, and enrollment among people earning \$34,000–\$54,000 a year declined by about a third as a result.

Came out against the ban on cell phones in Kansas public schools.

Similarly, should the legislature be dictating how kids use their cell phones? No — Shawnee Mission and De Soto school districts already had a policy that worked for their schools, but the state legislature came in and overrode local school boards and parents. That has to stop.

KNEA: Backs huge tax hikes

The KNEA opposed comprehensive income tax relief, as well as eliminating the state tax on social security and groceries.

“Providing an income tax rate of 4.95% for individuals and decreasing the normal tax for corporations, increasing the income limit for the income tax subtraction modification for social security income and providing that all social security income qualifies for the subtraction modification commencing in tax year 2026, increasing the Kansas standard deduction for individuals and further increasing the standard deduction by a cost-of-living adjustment, discontinuing the food sales tax credit, decreasing the privilege tax surtax, establishing a 0% state rate for sales and use taxes for food and food ingredients on July 1, 2023, and increasing the extent of property tax exemption for residential property from the statewide school levy.”

*“Timothy Graham, Kansas National Education Association, testified as an opponent for **HB2457** stating changes in tax policy should not only consider the impact on the average Kansas citizen but also the impact on the Kansas budget. KNEA opposes any tax policy that would impact the stability of the state budget and/or prevent the constitutional funding of Kansas schools and create an imbalanced tax structure that unfairly burdens low-income families. (Attachment 10) Mr. Graham stood for questions from Committee members.”*

The KNEA opposed a flat income tax and opposed pro-business tax-relief measures such as removing the 3% state surtax on corporations and cutting the surtax on banking and financial services by 50%.

Senate Assessment and Taxation Committee
Senate Bill 169
February 15, 2023

Chairperson Tyson, members of the Committee, thank you for the opportunity to submit testimony in opposition to SB 169.

KNEA believes that changes in tax policy should not only consider the impact on the average Kansas citizen but also the overall impact of the Kansas budget.

KNEA opposes any tax policy that would impact the stability of the state budget and/or prevent the constitutional funding of Kansas schools. We also oppose the creation of an imbalanced tax structure that unfairly burdens low-income Kansans.

Based on this, KNEA opposes this legislation on two grounds.

- Fairness
- Feasibility

Fairness

Senate Bill 169 essentially creates a flat tax system. In short, flat income tax proposals are regressive in nature and create a higher burden on the wage earner at the lower end of the spectrum. In the case of SB 169 an educator, or other wage earner, that has a minimum taxable income of \$15,001 would be subject to the same tax rate of a millionaire.

A similar bill on the House side removes the 3% state surtax on corporations making over \$50,000 yearly. The bill also cuts state surtax rates on banking and financial institutions by over 50%. We do appreciate that these provisions aren't included in this legislation, but we are extremely concerned that the process will yield a bill that includes them.

If this were to happen, One typical scenario that shows the irony and unfairness of this type of proposal is that educators, parents, and students, spend hundreds of thousands of Kansas dollars every year in preparation for the school year only to know that the yearly windfall that the wealthy corporations receive from this rush for supplies is taxed at the same level as the hard-earned wages of the consumers.

AFL-CIO Supports Leftist Policies

AFL-CIO Statement Endorsing Medicare for All.

Our goal is to move toward a single-payer system, like Medicare for All, that provides universal coverage using a social insurance model, while retaining the critical role of workers' health plans. Any such system must guarantee everyone can get the health services they need without exclusions or financial barriers to care, and with access to high-quality doctors, hospitals and other health care providers; not diminish the hard-fought benefits union members have won for themselves and all working people; include long-term care for all; retain the Department of Veterans Affairs health care system as the primary direct provider of fully integrated care to veterans; provide multiemployer and other worker health plans the opportunity to administer core health benefits and to provide supplemental benefits, each on a fully tax-advantaged basis; and keep a strong federal role without shifting costs to states. We will support legislation, like Medicare for All, that guarantees health care as a human right through a single-payer system, which we will judge according to the above core values.

AFL-CIO favored the Biden student loan bailout.

"We call on the Biden administration to do its part to assist borrowers hampered by crippling debt. Organized labor was built on the foundation of creating a pathway to the middle class for everyone, but skyrocketing student loan debt has become an insurmountable obstacle to achieving this goal. The Biden administration's decision to continue to pause student debt has made a tremendous difference in the lives of so many borrowers, but these borrowers still live with the uncertainty of not knowing when they will need to drastically alter their finances in order to begin repaying their loans. After all that we have endured in the wake of the COVID-19 pandemic, we cannot ask working people to make further sacrifices. Now is the time to cancel, not collect, student debt."

AFL-CIO favored giving amnesty to illegal aliens.

"America's unions laud House passage of the American Dream and Promise Act, and urge lawmakers to use it as a catalyst for broader immigration reforms that are long overdue. The Senate must now step up and take action to provide a well-earned path to citizenship to working people who help to build, feed, serve, educate and care for our nation. Throughout the country, working people of all backgrounds are organizing and winning. We will continue to mobilize to support legislation like the Dream and Promise Act that uplifts workers' rights and protects our right to organize."

Jill Stein takes radical positions on policy such as: Medicare for All, Open Borders, Cancelling Student Debt, Cutting the Defense Budget, Massive Tax Hikes, and Anti-Israel statements, including calling Joe Biden “Genocide Joe”.

What steps will you take to ensure all Americans have access to quality and affordable health care, including reproductive care and prescription drug coverage?

Healthcare is a human right. We need a universal healthcare system that is equitable, comprehensive, free at point of service, and accessible to every single person in the US.

A Jill Stein administration will immediately implement National Improved Medicare for All as a precursor to establishing a UK-style National Healthcare Service which will replace private hospital, private medical practice, and private medical insurance with a publicly-owned, democratically controlled healthcare service that will guarantee healthcare as a human right to everyone in the United States. We will take the pharmaceutical industry into public ownership to provide medicines as a public good.

What are the most important steps you will take to improve U.S. immigration policies, including creating an accessible path to citizenship?

Immigrants' rights are human rights. It's time to completely overhaul the broken and abusive immigration system, as well as the unjust policies driving people to leave their homes. We need a comprehensive immigration policy and properly funded institutions to ensure a timely, ethical, transparent, and dignified path to citizenship for immigrants, asylum seekers, and refugees. Border policy should move away from detention and enforcement response toward humane and effective asylum processing.

A Jill Stein administration will replace ICE with an Office of Citizenship, Refugees, and Immigration Services under the Department of Labor, grant amnesty to every undocumented person, and implement a path to citizenship with expediency.

What actions will you take to address the threats facing the United States due to climate change?

We all have a human right to a livable planet with a stable climate, healthy food, clean air and water, and living soil. We need a real Green New Deal to transition rapidly from an economic system that is destroying our only home to a sustainable society built around human needs and protecting life on Earth.

Our Green New Deal will invest in renewable energy, a publicly-owned nationwide smart energy grid, clean transportation technology, energy efficiency and conservation to generate millions of good-paying jobs, rapidly phase out fossil fuels and achieve 100% clean renewable energy and zero-to-negative carbon emissions by no later than 2035.

We need to act now so that our children and future generations can not only survive, but thrive.

Student loans

Q: Should anything be done by the federal government to defray the costs of student loans?

A: Stein has called for canceling student debt.

Defense spending

Q: Do you support cutting the defense budget from its current levels?

A: Yes. Stein has a long history of criticizing the military budget as exorbitant and hamstringing domestic initiatives.

Green Party presidential candidate Jill Stein on Thursday accused both the Democratic and Republican parties of supporting genocide in Gaza during a two-hour presentation in Dearborn Heights at the Islamic House of Wisdom.

“As America becomes aware that this is blood on our hands, we are not simply accomplices, we are full partners in this genocide,” Stein said to an audience of about 150 people.

The event took place on the same night as President Joe Biden’s [State of the Union address](#) and in a [city](#) where more people voted uncommitted in the Feb. 27 Democratic primary than for the president in an organized protest of his policies regarding the Israel-Hamas war. Uncommitted also won in two other cities with significant Arab-American populations, Hamtramck and Dearborn, although Biden [notched 81% of the vote statewide](#).

Stein, a physician who was the Green Party’s 2016 presidential nominee, used the word “genocide” more than two dozens times to describe the conflict between Israel and Hamas. Fighting in Gaza broke out on Oct. 7, after Hamas attacked the southern portion of Israel, killing about 1,200 people and taking more than 250 hostages. [More than 30,000 people](#) have now been killed in the war, the Hamas-controlled Gaza health ministry reports.

“Israel, enabled by the U.S. is committing genocide against Palestinians in Gaza,” Stein said, referring to Biden as “Genocide Joe.”

In his address Thursday night, Biden [announced](#) that the U.S. military will build port infrastructure on the Gaza Strip coast to allow humanitarian aid to arrive by sea.

“To the leadership of Israel I say this: Humanitarian assistance cannot be a secondary consideration or a bargaining chip,” Biden [said](#). “Protecting and saving innocent lives has to be a priority.”

“As we look to the future, the only real solution to the situation is a two-state solution over time,” Biden said.

In recent days, Biden has [said](#), “We need a cease-fire.” But he has also said such an action “in the hands of Hamas right now” and he reiterated in his address that he wants the terrorist group to release Israeli hostages.

Biden and GOP former President Donald Trump appear to be set for a rematch of the 2020 election. Stein ran for president in 2016 and secured 1.4 million votes nationally, with [more than 51,000](#) coming from Michigan. Trump won Michigan over former Secretary of State Hillary Clinton that year by less than 11,000 votes. In 2020, Biden defeated Trump in the Mitten State by more than 154,000 votes.

[Cornel West](#), a former Green Party member, and [Robert Kennedy Jr.](#) are also running independent campaigns for president and independent group No Labels is also seeking an alternative candidate.

Stein told the gathering that the Green Party is currently on the ballot in 21 states and she expects the number to increase. She pledged a more aggressive plan to address climate change and we “need to get off fossil fuels and on to renewable energy.” Stein called for more public financing of elections at all levels of government as well as ranked-choice voting, which allows voters to rank candidates in order of true preference.

Rome Bethea, a Black Detroit resident who attended the event, had heard Stein before and liked what he heard from on Thursday, especially her ceasefire message.

“She’s really cool,” Bethea said.

Haneen Mahbuba, who is Arab American and currently resides in Arlington, Va., said she voted for Trump in 2016 and Biden in 2020. She also liked what she heard from Stein, particularly her support for Palestinians in Gaza.

“I haven’t really read about the Green Party and I’m open to learning more about her because I have swayed between the other parties. I want to give the new candidates a chance,” said Mahbuba.

(Source: <https://michiganadvance.com/2024/03/08/in-dearborn-heights-speech-jill-stein-calls-for-end-to-genocide/>)

Stein wants to implement a financial transaction tax, which her campaign says would impose a 0.5% tax on Wall Street sales of stocks, bonds and derivatives and generate about \$300 billion in new revenue per year.

She advocates rewriting the tax code to benefit working families as well as poor Americans. Wealthy Americans would pay higher taxes under Stein’s plan.

“We need to bring back the aristocracy tax. It was established so that Americans wouldn’t develop an aristocracy, but we now have an aristocracy where incredible wealth is inherited and passed down to generations,” she said. Specifically, she says she wants to hike the estate tax to “at least” 55% on inheritances over \$3 million.

Stein says she’ll make Wall Street, large corporations and wealthy Americans pay their “fair share” of taxes.
